

Global Problem Solvers: The Series – Season 1, Working Well

Episode 1.3 – The Solution Teaching Companion

www.gpstheseries.com/en-us/episodes/episode-1-3/

Episode Summary

Having developed a more informed understanding of the water situation in Malawi, the Global Problem Solvers take an inventory of their skills and experience: What can they each contribute to developing an innovative solution? Pooling their talents, the Global Problem Solvers invent a network of sensors to determine when each well requires maintenance and start implementing their strategy in a small-scale test. But not everything works as anticipated.

Worksheet

- 1. Think of a problem in the community you live in, like pollution, traffic, or flooding. Describe a solution that could address your community’s problem.
- 2. Fill in the blank letters to uncover the key themes in this episode:
